Software Engineer 3

PROFILE

- 8+ year's experience developing applications with Java 8+ and/or Spring Boot 2+.
- 3 year's experience leading the software development and delivery using Agile Scrum methodology.
- Extensive hands-on building and designing RESTful Web Services.
- Experience with Docker, PostgreSQL, Redis, Openapi/Swagger, Postman, Jira, Bitbucket, Confluence.
- Hands-on building cloud-native applications using event driven microservices architecture with Kafka.
- Hands-on DevOps practices using GitHub Actions, CircleCi, Snyk, SonarQube, DockerHub, and Firebase.
- Experience working with remote teams in different time zones (Canada, USA, UK, India).

PROFESSIONAL EXPERIENCE

Software Engineer 3

March 2022 – July 2022 (5 months)

Ciena | Greater Montreal Metropolitan Area | Permanent Full-time | Remote

- Work in a “DevOps” culture from requirements, implementation to deployment.
- Apply technologies (Linux, Docker) to develop and support inhouse and commercial software.
- Interact with a globally distributed team of product designers.

Skills: Java · Eclipse · JIRA · Docker Products · Confluence.

Specialist, Software Architecture

January 2021 – July 2022 (1 year 7 months)

Ciena | Greater Montreal Metropolitan Area | Permanent Full-time | Remote

- Leading the team and the software delivery using Agile Methodologies.
- Decide with the team how to approach tasks and develop a plan to accomplish them.
- Drive product design and analysis.
- Perform development, unit/integration testing, individually and in collaboration with the team.
- Perform code reviews.
- Create and maintain internal technical documentation.
- Troubleshoot software issues & work with the team to identify the cause.
- Maintain the continuous integration and deployment tools.
- Coordinate and communicate information to team members and stakeholders.
- Resolve issues and conflicts that may arise during sprint execution.
- Support the director in allocating software developer resources.

Skills: Java 11 · Spring Core · JavaFX · JUnit · Git · Maven · Design Patterns · JIRA · Bitbucket · Confluence

Senior Associate, Solutions Engineering

November 2018 – December 2020 (2 years 1 month)

Ciena | Greater Montreal Metropolitan Area | Permanent Full-time | Hybrid

- Develop and Design features to analyze and visualize telecom networks.
- Participate in all stages of the software development.
- Collaborate with software development team to ensure successful software delivery on time.
- Enhance coding standards and development guidelines.
- Participate in code/design reviews.
- Maintain internal technical documentation.

Skills: Java 11 · Spring Core · JavaFX · JUnit · Git · TL1 · Maven · Design Patterns · JIRA · Bitbucket · Confluence

Java Software Developer

April 2017 – October 2018 (1 year 5 months)

Ciena | Greater Montreal Metropolitan Area | Contractor Full-time | On-Site

- Develop adaptive solutions related to networking & telecom engineering.
- Participate in all stages of the software development.
- Work in close collaboration with the telecommunication engineers.
- Understand the requirements involved in the evolution of the system.

Skills: Java 8 · Swing · JUnit · Git · TL1 · Maven · Design Patterns · Eclipse · JIRA · Bitbucket · Confluence

Founder and President

March 2015 – June 2016 (1 year 4 months)

IT-DMSIC | Greater Paris Metropolitan Region | Permanent Full-time | On-Site

- Developing and maintaining a company's vision, mission statement, and strategic plan.
- Setting up systems and procedures to ensure the company's success over time.
- Reviewing financial statements and other reports to assess the company's performance.
- Identifying new opportunities for revenue growth, including new products or services.
- Evaluating new technologies to determine their potential impact on the company's operations.
- Establishing and maintaining relationships with suppliers, customers, and other business contacts.

Skills: Agile Project Management · Software Development · Program Management

Erlang Software Developer Intern

April 2014 – September 2014 (5 months)

EDF | Greater Paris Metropolitan Region | Internship | On-Site

- Study multi-agent systems domain.
- Define a real case of prey-predator model.
- Implement the model with Erlang on Sim-Diasca.
- Analyze the results, including the sensitivity to initial conditions.

Skills: Erlang · Git · Application Development · Design Patterns · Eclipse · Sim-Diasca

Java Software Developer Intern

March 2012 – August 2012 (6 months)

IBISC-CNRS Laboratory | Greater Paris Metropolitan Region | Internship | On-Site

- Analyze algorithms for collaborative coalition in the multi agent system domain.
- Develop a generic collaborative coalition protocol with Java and Jess.
- Test, validate and Integrate in an embedded ambient environment.

Skills: Java 7 · JUnit · Git · Application Development · Object Oriented Design · Eclipse

EDUCATION

Master's in Computer Science and Intelligent Systems

2012 - 2014

Paris Dauphine University | Greater Paris Metropolitan Region | Full-time

Master's in Computer Science

2010 - 2012

Paris 8 Vincennes-Saint-Denis University | Greater Paris Metropolitan Region | Full-time

Dear Madam, Sir,

My name is Lyes Sefiane (He/Him), Software Engineer 3 (Senior Software Developer) with more than **8 years experience** developing applications mainly with **Java Ecosystem** (Java 8 +, Spring Boot 2+, Spring Data JPA 2+, Spring Data MongoDB 2+, JUnit), Redis, PostgreSQL, MongoDB, Docker, Postman, Openapi/Swagger, RESTful Webservices, Agile Scrum methodology. Please refer to my [LinkedIn](#) and [GitHub](#) profiles for more information.

After **5.4 amazing years** developing, designing, expanding a **Desktop Application (Java 11, JavaFx/OpenJFX and Spring Framework)** at [Ciena Corporation](#) as a full time dedicated to the **Optical Networking** domain (reporting to the **Director Service Innovation** at [Ciena Corporation](#)) to aid the Ciena's network engineers on their daily tasks, I decided to take a break following my resignation on **July 29th, 2022** which triggered a full background check.

During my experience at [Ciena Corporation](#) I managed the software development team of **04 Software Developers** contractors and **02 internships** students for the delivery and planning of the software using the Agile Scrum methodology for more than **03 years**.

Currently looking for a career advancement to become a **Software Development Manager** (inside/outside **Canada**) following my move from **Montreal** to **Ottawa** on **December 1st, 2022** where I earned my **Educational Credential Assessment (ECA)** provided by the Comparative Education Service (CES) of the **University of Toronto** of my Master's degree of **Paris Dauphine University**.

Do not hesitate to reach out to me for more information.

Regards,
Lyes Sefiane.
